

**FX230 Issue 4
Xenon 150w
Manual Control**

PRISON / SECURITY GRADE

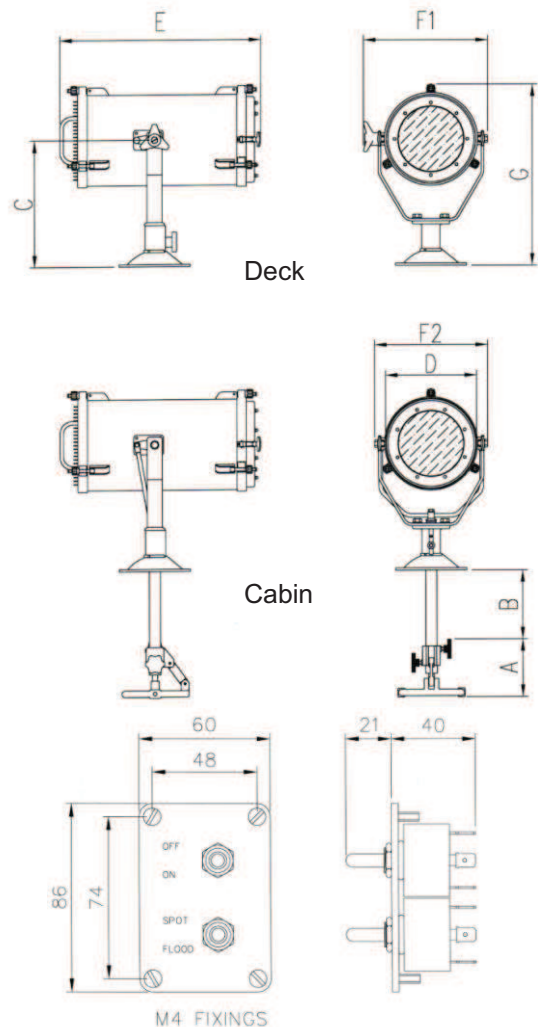

APPLICATION

The FRANCIS FX Premium range of searchlights incorporate the design features required to successfully operate searchlights in the most demanding product operating environments on land and sea. With the "colour temperature" of the Xenon lamp being equal to that of "sunlight" the searchlight is ideal for spotting dangers to navigation in the Polar regions, such as low-lying icebergs. The FX230 can be fitted with an optional infra-red facility which is IDEAL for covert use during security operations. Other applications include search and rescue work as well as use onboard fast patrol craft.

DESPATCH NUMBERS			
Type	Supply	Weight	Part Number
FX230 Deck	10-28v	18.0 Kg	A2432
FX230 Cabin	10-28v	21.5 Kg	A2433
